

ENMORE PARISH COUNCIL

Location and details of public land and buildings

The Council does not own any public buildings so this statement only relates to land.

In November 2007 the Council completed the purchase of some land in the expectation that the churchyard surrounding the nearby Parish Church would be closed for new burials within the foreseeable future. As yet, the churchyard at St Michael & All Angels, Enmore has not been closed and there have not yet been any burials on this land.

The land is adjacent to Sawmills, Enmore. Title number ST261890. Its National Grid reference is 0081 (formerly part OS Number 138) and its acreage is shown on plans as 0.219 hectares/0.54 acres. The purchase price was £8,000.

A loan from the Public Works Loan Board was taken out to cover the purchase price, legal costs and work to improve access from the road. Further work will be needed to provide for parking and landscaping to make what was previously agricultural pasture land suitable for its new use. This loan is being paid off over a period of 25 years.
